Landis Announces New Staff Hires to Support Company Growth

Company Expands Operations and Customer Support Staff

(READING, PA) April 22, 2010 – Landis Company, a leader in warehousing, fulfillment, and logistics services, today announced the expansion of its staff in operations and customer support. The new hires come following a year of strong growth for Landis, which saw the company add several new customer accounts and relocate its warehouse operations to a state-of-the-art facility in Reading.

2009 was one of Landis' most successful years in business. During the year, Landis was awarded fulfillment outsourcing contracts from companies including Bullwater Health & Fitness, Euro RSCG Impact, Yuasa Battery, Inc, Alex's Lemonade Stand Foundation, and several others. This past quarter, the company also opened a new warehouse facility and operational headquarters at 1002 Patriot Parkway in Reading. The 105,000 foot facility is fully bonded and provides over 13,000 pallet positions, as well as significant bulk materials storage space, making it well-suited to support a wide range of Landis' customer requirements.

To support the growth in its client base and maximize efficiency at its new facility, Landis has hired Brian Guzanowski as Director of Operations and Jillian Stahl as Account Manager – Fulfillment. Guzanowski will supervise all aspects of Landis' operations including staffing, building/equipment maintenance, customer relations, and overall operational productivity. He joins Landis following an 18 year career at Yuasa Battery Inc., where he rose through the company to the position of Distribution Center Manager.

Stahl is a recent graduate of the University of Connecticut, where she earned a Bachelor of Science degree in Business Administration, with a concentration in Small Business Management & Entrepreneurship. In her new role at Landis, Stahl will have responsibilities in areas that include client account administration, customer order fulfillment, and inventory management.

Both Guzanowski and Stahl will report directly to Landis President and CEO Rob Tompkins.

"Landis is coming off the most successful 12 month period in our company's history," commented Tompkins. "By expanding our staff, we further strengthened our ability to serve our customers at the highest level of quality and responsiveness, while better positioning our company to grow even further in the years ahead. We have a great team who is now poised and ready to make Landis the partner of choice in the third party fulfillment industry."
